

PO Tracker User Manual

1. Overview

The PO Tracker is a system used to monitor the entire Purchase Order (PO) process, from procurement to payment collection. Its purpose is to ensure clear status tracking, accountability, and proper notifications for each department.

2. Roles and Responsibilities

- **Procurement** – Encodes initial PO details and follows up on collections.
- **General Manager (GM)** – Reviews and approves or rejects POs.
- **Finance** – Processes payments, vouchers, and collections.
- **President** – Provides final approval.
- **Supply Chain** – Manages delivery and logistics.

3. PO Tracker Workflow

Step 1: PO Encoding (Procurement - BLUE)

Procurement enters the following details:

- Client Name
- Quotation Number
- Quotation Link
- Quotation Date Submitted
- Assigned Personnel
- PO Number
- PO Date Recorded
- PO Copy

System Action:

- Notifies the General Manager.
 - Order Status: **Pending**
 - PO Location: **GM**
 - GM Approval Status: **Pending**
-

Step 2: GM Approval (RED)

After reviewing the PO, the GM selects one of the following:

- **Approved**
- **Rejected**

If Approved:

- Finance is notified.
- Order Status: **GM-Approved**
- PO Location: **Finance**
- Auto-fill: **PR Issuance Date**

If Rejected:

- Order Status: **Cancelled**
-

Step 3: Finance Processing (YELLOW)

Once the PO is GM-approved, Finance enters:

- PR Approval Date
- Check Voucher Number

System Action:

- President Approval Status: **For Approval**
 - Order Status: **Finance-Approved**
 - PO Location: **President**
 - Notification sent to President
-

Step 4: President Approval (DEEP YELLOW)

Approval may be done by:

- President
- Authorized Finance Personnel

Options:

- **Approved**
- **Rejected**

If Approved:

- Order Status: **President-Approved**
- PO Location: **Finance**
- Check Voucher Status: **Pending**

If Rejected:

- Order Status: **Cancelled**
-

Step 5: Supplier Payment (Finance)

After payment is made to the supplier, Finance updates:

- Check Voucher Status → **Deposited**

System Action:

- Order Status: **Funded**
 - PO Location: **Supply Chain**
 - Notification sent to Supply Chain
-

Step 6: Delivery and Logistics (Supply Chain - GREEN)

Supply Chain enters the following details:

- Supply Chain Assignee
 - Date of Pick-up
 - Order Status: **For Pick-up**
 - Expected Delivery Date
 - Order Status: **For Delivery**
 - Actual Delivery Date
 - Order Status: **Delivered**
 - Auto-fill: Expected Collection Date (30 days after delivery)
 - Proof of Delivery
 - Delivery Receipt Number
 - Sales Invoice Number
-

Step 7: Collection Monitoring

If the **Actual Collection Date** is not yet filled:

System Action:

- Notification sent to Procurement
- Order Status: **Collection Follow-up**
- PO Location: **Procurement**

Procurement/Supply Chain enters:

- Actual Collection Date
 - Collection Receipt
 - Collection Attachment
 - Copy of DR and SI
-

Step 8: Collection Confirmation (Finance)

Once the Actual Collection Date is entered:

System Action:

- Order Status: **Collected**
- PO Location: **Finance**
- Notification sent to Finance

Finance enters:

- Collected Amount
-

4. Order Status Summary

Stage	Order Status
New PO	Pending
GM Approved	GM-Approved
Finance Approved	Finance-Approved
President Approved	President-Approved
Paid to Supplier	Funded
For Pickup	For Pick-up
For Delivery	For Delivery
Delivered	Delivered
Follow-up	Collection Follow-up
Paid by Client	Collected
Cancelled	Cancelled

5. PO Location Summary

Stage	PO Location
Initial	GM
After GM	Finance
After Finance	President
After President	Finance

After Payment Supply Chain

Follow-up Procurement

Final Finance

6. Notifications Flow

- Procurement → GM (New PO)
 - GM → Finance (Approved)
 - Finance → President (For Approval)
 - President → Finance (Approved)
 - Finance → Supply Chain (Funded)
 - System → Procurement (No Collection)
 - System → Finance (Collected)
-

7. Best Practices

- Ensure all information is complete and accurate before submission.
 - Update statuses immediately after each action.
 - Check notifications daily.
 - Avoid manually editing auto-filled fields.
 - Keep attachments and documents updated.
-

8. End of Process

The process is completed when:

- Client payment has been collected
 - Finance has recorded the collected amount
 - Order Status is **Collected**
-
